Helping people vote

Increase student engagement in the community and on campus

I see more students being engaged and interested in issues that effect them as well as their broader community. Our volunteer mobilizations create a sense of civic duty and interest among among De Anza students.

civic engagement

The program has an impact on the campus by giving students an ability to get easiliy involved in political issues in an experience rich environment.

This program allows us to inform the students on the ballot as well as introducing them to the world of politics and connecting with political leaders they otherwise wouldn't be aware of.
