<sup>1</sup> Figures revised since publication of 1950 reports. The revised 1950 populations are: urbanized areas (69,252,234); urban fringe (20,874,994); other urban, United States (27,94,583); and other urban, conterminous United States (27,215,452). Revised data not available by color and sex. For explanation of changes, see footnotes 3 and 6 on page 7 of table 63.

<sup>1</sup> Figures not shown because data for Puerto Rico not available by color.
2 In 1960, excludes Canton and Enderbury Islands, Corn Islands, Trust Territory of the Pacific Islands under U.S. administration, and miscellaneous small islands of sovereignty or jurisdiction. In 1950, elso excludes Midway and Wake Islands, Johnston Island and Sand Island, and Swan Islands.
3 Represents U.S. citizens abroad for extended periods. Since this population was enumerated on a voluntary basis, its coverage is probably less complete than that of other categories of Americans abroad.
4 Based on 20-percent sample of reports received and consequently subject to sampling variability.
5 Not available.

<sup>1</sup> Figures include inhabitants (560) of Baker, Canton, and Enderbury, Howland, Jarvis, Johnston and Sand, and Midway Islands which were enumerated with Hawaii in 1940.
2 Figures include inhabitants of Midway Islands enumerated with Hawaii. The total populations of Midway Islands were as follows: 1930, 36; 1920, 31; 1910, 35.
3 Figures exclude all persons living on Indian reservations.

After revised population total for San Francisco-Oakland Urbanized Area is 2,395,098. The figure in the table includes population for three areas misclassified as inside, rather than outside, the urbanized area. The error was discovered too late for correction of the detailed distributions. See other footnotes at end of table, p. 185.

["U" denotes an unincorporated place; "UT" denotes an urban town or township. Minus sign (-) denotes decrease. Percent not shown where less than 0.1]

Afthe revised population total for Norfolk is 304,869. The figure in the table includes population for an area misclassified as inside, rather than outside, the city limits. The error was discovered too late for correction of the detailed distributions.

See other footnotes at end of table, p. 185.

Table 63.—SUMMARY OF POPULATION CHARACTERISTICS, FOR STANDARD METROPOLITAN STATISTICAL AREAS, URBANIZED AREAS, AND URBAN PLACES OF 50,000 OR MORE: 1960—Con.

["U" denotes an unincorporated place; "UT" denotes an urban town or township. Minus sign (-) denotes decrease. Percent not shown where less than 0.1]

<sup>1</sup> Children under 5 years old per 1,000 women 15 to 49 years old.
2 See text for changes in household definition,
3 1950 figures revised since publication of 1950 reports,
4 1950 data not available,
5 Includes urbanized areas of Albany-Troy and Schenectady shown separately in 1950.
6 Includes Niagars Falls Urbanized Area shown separately in 1950,
7 Norvalk and Stamford Urbanized Areas were reported in 1950 as Stamford-Norvalk Urbanized Area, 1950 population total allocated to each area as defined in 1960,
8 Includes 1950 population and households of Elizabeth City County consolidated with Hampton City since 1950,
9 The city of Honolulu has legally established limits and therefore is treated as an incorporated place,
10 Includes 1950 population and households of Warwick County incorporated and consolidated with Newport News since 1950,

#### **APPENDIX**

Table B-1.—PERCENT OF ALLOCATION FOR NONRESPONSE, FOR THE UNITED STATES, BY SIZE OF PLACE: 1960

[The term "allocation" means that a characteristic was assigned a value during the tabulation because of the absence of an entry on the schedule, or because the entry was poorly marked, inconsistent with another entry, or was not readable by the mechanical equipment. See text for further explanation. Percent not shown where less than 0.1 or where base is less than 100]

This type of allocation, which is not included in the other percentages in this table, consists of cases where persons, and all their characteristics, were substituted for an estimated number of omitted persons. Omissions due to moninterview consisted of persons in households for which the enumerator obtained no population data. Omissions due to mechanical failure consisted of full schedule pages which were not properly recorded in the electronic processing system.

<sup>1</sup> This type of allocation, which is not included in the other percentages in this table, consists of cases where persons, and all their characteristics, were substituted for an estimated number of omitted persons. Omissions due to nominterview consisted of persons in households for which the enumerator obtained no population data. Omissions due to mechanical failure consisted of full schedule pages which were not properly recorded in the electronic processing system.
