Instructor: Dr. Zack Judson
Office Hours: Mon 12:30-1:20 TWTh 8:30-9:20 Office: E36b

## Email: judsonzack@deanza.edu

(Note: I will not answer Math questions over email)
Prerequisite: $\quad$ Math 212 or an equivalent course

## Text: 1) INTERMEDIATE ALGEBRA, $7^{\text {th }}$ Edition BY BLITZER

2) Student Access Code to MyMathLab (Required)
3) A Scientific Calculator (i.e. TI-30XIIS)

Midterm Exams: Four exams will be given with no make-ups. If an exam is missed under extreme circumstances and for a very valid reason, an equivalent of the final score will replace the missing exam score.

Homework: Homework will be assigned on MyMathLab. No late work will be accepted. MyMathLab Course ID: judson74453

Groupwork: Students will often work in groups. Often this work will be at the board. This work will largely be graded based on effort. There will be no make-up group work allowed. If you are going to miss class for any reason you must inform me by email. Be sure that your email contains the date of the absence and your reason for missing class. Emails should be sent prior to the date missed. Due to some circumstances this may not be possible and the email must then be sent at the earliest opportunity.

Final Exam: On the last Wednesday of class there will be an exam covering all of the applications covered during this course. This score will be combined with the two-hour comprehensive exam that will be given during the final exam time.

Grade:

| Homework | $20 \%$ | Midterms (4) | $40 \%$ |
| :--- | :--- | :--- | :--- |
| Groupwork | $10 \%$ | Final | $30 \%$ |

Grading Scale: $\quad \mathrm{A}: 93-100 \quad \mathrm{~B}+: 87-89 \quad \mathrm{C}+: 77-79 \quad \mathrm{D}: 60-69 \quad \mathrm{~F}: 0-59$ A-: 90-92 B : 83-86 C : 70-76 B- : 80-82

Accommodations: Those of you who need additional accommodations due to disability, campus related activities, or some other reason, please meet with me during the first two weeks of class to discuss your options.

Important Dates: April 21: Last day to add a class.
April 22: Last day to drop with no grade on record.
May 4: Last day to request Pass/No Pass grade.
June 1: Last day to drop with a "W".
*Evaluate real-world situations and distinguish between and apply exponential, logarithmic, rational, and discrete function models appropriately.
*Analyze, interpret, and communicate results of exponential, logarithmic, rational, and discrete models in a logical manner from four points of view - visual, formula, numerical, and written.
