Achievable Goal = The rate that will be achieved within 5 years. This rate is set at the five year average. Aspirational Goal = The rate the college will work towards to achieve, but is set at a high, aspirational level. This rate is set 1 percentage point above the five year average. Standard = The rate set at its lowest level that the college would not want to drop below. If it did, it would want to take steps to increase the rate. This rate is set 1 percentage point below the average five year rate reported, unless the average is higher than the current rate, in this case the rate is set one percentage point below the current rate. Data is reported for years where students were placed in a career with ten or more students.
